HIS FIRST TRIUMPH.

Nineteen Yeass Age-How Farragut Took the City is a Storm of Fire, Grape, and Shell-A Desperate Fight at the Month of the Mississippi River.

Very early in the history of the war Gulf. The command of this expedition was as- United States would be allowed to float in pressigned to CAPTAIN DAVID G. FARRAGUT,

a Tennesseean by birth, and an officer who had seen service and done good work in the Mexican campaign. On the 2d of February, 1862, Farragut sailed for Hampton Roads, in the armed steamer Hartford. His instructions were of the most positive character. He was to proceed with all possible dispatch to the Gulf of Mexico and assume command of the Western Gulf squadron. This squadron was to be considerably reinforced, and in addition there was to be attached to the squadron a powerful bomb flotilla under Commander David Porter. With these mortar vessels, and with such others as might be spared from the blockade, he was to reduce the defences which guarded the approaches the enemy the Mississippi River with all its means to New Orleans, take possession of that city under the guns of the squadron, and hold it until troops should be sent to his aid. Thus instructed, and having been provided with plans of the principal works on the Lower Mississippi, Farragut set about the accomplishment of his task. A land force of eighteen thousand to back up the efforts of the flect had been furnished, and placed under the command of Major-General Butler. Before the middle of April

the National forces now were, Farragut had a because its seenes and incidents could not task on hand fitted to unnerve the strongest arm possibly have happened, and the combination and appall the stoutest heart. Not only were the two ficets now fully in the river; Butler, with his troops, was at the Southwest Pass, immediately below, ready for action. A fire-raft which came sailing down the river gave the Nationals an idea of the species of tactics which the enemy was disposed to adopt upon the next day.

of the bombardment Farragut, seeing that no decisive results were likely to be attained, resolved to cut the barricade, run the gauntlet of the forts. and pass up to the city of New Orleans in spite of their guns. The first thing to be done was to remove the obstructions in the river. On the night of the 20th of April, under cover of the darkness, a fierce north wind blowing, Commander Bell, with the Pinola and Itasca, ran up to the boom. The Pinola attempted unsuccessfully to blow up one of the hulks by means of a petard. The Itasca was lashed to the hulk adjoining. A rocket thrown up from Fort Jackson revealed her presence, and a season, probably in commemoration of the anni- | couple presented themselves at the chancel rail, heavy fire was at once opened upon her from the versary of the battle of New Orleans, which was a and in the simple but highly impressive cerefortress. Bailey, with his second division, had had, if possible, even a harder experience, but he succeeded in keeping out of the way of the confederate rams, and compelling many of them to surrender. Bell had been less fortunate than either Farragut or Bailey in bringing his ships into action and accomprishing the task assigned him. The fight was ended. It had been as brief as desperate. By this time Bailey was joined THE CAPTURE OF NEW ORLEANS by Farragut, and the National fleet, consisting of thirteen vessels, was ready to steam up to New Orleans. Porter still kept up the bombardment of Fort Jackson, which surrendered on the 26th of April, and Butler, with his land forces, received the surrender of Fort St. Philip. On the morning of the 25th Farragut proceeded up the river with nine vessels. It was ten o'clock before the fleet had reached what is called the English Turn. Bell landed with one hundred marines, and THE NATIONAL FLAG was raised over the mint and the custom-house. On May 1 General Butler arrived, and the city was turned over to him. The capture of New Orleans, which was accomplished at the small sacrifice of 40 killed and 177 wounded, was justly regarded as one of the greatest victories yet achieved by the North. The people were jubilant, and President Lincoln, in a cheerful proclamation, and, as if to give to the world assurance of the completeness of the National victories, declared the termination, on June 1, of the blockade of the ports of Beaufort, Port Royal, and New Orleans. It was justly felt to be a heavy loss to the South, as it gave to of navigation for a base of operations.

THE ATHENAUM CLUB CONCERT. The last concert of the season under the auspices of the Athenaum Club took place at Lincoln Hall last evening. The attendance, though not so large as at some of the previous concerts of the club, was ticeable, as nearly all of our prominent musicians were present to enjoy the finest class of music which has been given. The entertainment last night was without orchestra, and was what is commonly called a chamber concert. The performers were all artists, and the selections upon the programme were the compositions of such eminent musicians as Edward Coury. The Athenæum Club deserve the thanks of all lovers of the highest order of music for their efforts to cater to the most cultivated tastes during the past winter, and it is to be hoped that the enterprise has been a success financially.

The crowd at the Comique last night, filling every portion of the audience room, testified in the most emphatic manner their satisfaction and called "Sim Dipsey's Joke," was greeted with roars commenced. The first shot was fired from Fort of laughter, and Jake himself was simply immense.

Foresman's complimentry benefit. which will take place at Lincoln Hall on Thursday evening, should not be forgotten. The sale of tickets only commenced yesterday, and already a arge number of seats have been secured.

"Billee Taylor" was repeated at Ford's Opera-House last night. The cast was changed from that on Saturday night, but Miss Eva Mills and Annie Shaeffer remain.

FARRAGUT SQUARE.

THE CEREMONIES OF UNVEILING

Witnessed by a Brilliant Gathering-The Admiral's Widow Present-The President's Speech-The Statue Unveiled by Veterans Who Served with Farragut.

The work on the pedestal was completed early yesterday morning, and when the people commenced to assemble at Farragut Square, which was long before noon, the statue was veiled with a huge American flag. The bronze mortars were in their places on the four sub-pedestals. A wreath was placed around each of these mortars. A large wreath was placed on the ground on each side of the pedestal, and baskets of flowers were arranged tastefully about the structure. There were three stands extending along the northern, western, and southern sides of the park, and enclosing a square space some fifty yards in width about the statue. THE STANDS

were draped in flags. That on the west side was reserved for the distinguished guests and the speakers, a small stand for the speakers being placed immediately in front of the statue. A section in the south stand was given up to the survivors of Farragut's men. Shortly after noon the Department of the Potomac, Grand for them on the north and south stands.

THE PRESIDENT and Mrs. Garfield and party, arrived before one o'clock and were escorted through the square to the seats assigned them by Secretary of the Navy Hunt. Soon afterward the officers of the navy, headed by Admiral Porter and the officers of the army, marshaled by General Sherman, arrived, and the President held an impromptu army and navy reception on the stand, as every officer upon his arrival at once hastened to pay his respects to the Chief Magistrate.

MRS. FARRAGUT, the widow of the Admiral, was honored with similar ceremony. In the row immediately behind the speaker's stand sat General Sherman and Admiral Porter on the right, President Garfield, then Mrs. Farragut, a lady with a winning face, black eyes him word how much money I would need to buy and hair, about fifty years of age, who was attired it and he would send the money to me. The officers present included some who were very near and intimate with Admiral Farragut. Among these were Captain James E. Jouett, who commanded the Metacomet, the consort of the Hartford, who was especially commended by the Admiral for his prompt action in capturing the Selma, and Commander J. C. Watson, the flaglieutenant of Admiral Farragut, and the nearest and dearest of his official household. Admiral Mobile Bay, and who was specially commended for his untiring energy and faithfulness, was also present. Admiral Jenkins was a warm friend of the Admiral and Mrs. Farragut. Quartermaster Knowles, who was Farragut's signal quartermaster on the Hartford, and who lashed the Admiral in the rigging, pulled the rope and the flag fell away from the statue into the hands of the six brawny sailors. It was a moment of inspiration. As the sunlight fell upon the polished bronze there was a great shout from the people, the Marine Band played "Hail to the Chief," an admiral's salute of seventeen guns was fired from Lafayette Square, and an admiral's flag was hoisted to the masthead at the corner of the north stand by Bartholomew Diggins, one of the crew of Admiral Farragut's gig.
